# Agenda

- Market overview
- Key actions
- Managing in changing markets

# Market overview

# Short-term issues – long-term growth

## Short-term

- Funding for infrastructure investment is scarce
- Impact on our markets in the short term

## Long-term

- Demand for infrastructure will grow faster than GDP
- Market trends provide opportunity for businesses with depth of resource, asset knowledge and capacity to integrate
- Balfour Beatty is well-placed with a unique set of capabilities

# UK market

## Background

- Public sector investment in public infrastructure will fall over the next three years
- No wholesale drive towards outsourcing of services

## Key opportunities

- Government is focused on infrastructure development and bringing more private finance into public infrastructure
- Substantial opportunities in the local authority market
- Signs of recovery in the commercial market, most notably in London
- Power generation and transmission present the greatest opportunity

# US transportation market

## Background

- Transportation funding is caught in the cross-fire between politicians
- Limitations in federal transportation funding due to falling gas tax and no prospect of a general fund top-up

## Key opportunities

- Transportation is delivered by the states
- States are looking for alternative means of funding
  - 29 states have PPP legislation
- After a period of stable market activity, growth is likely to resume after the next presidential election

# US building construction market

## Background

- Strong niche position in federal construction
- Commercial construction market is unlikely to recover until GDP growth resumes and more bank financing is available

## Key opportunities

- Exploitation of strong position in federal construction
- Although forecasts have been revised down in Q3, strong recovery is expected, when it arrives

Source: McGraw Hill; Commercial and industrial comprises stores, warehouses, offices, hotels, auto and manufacturing and institutional comprises education, dormitories, health facilities, public and religious facilities, amusement parks and transportation.

# Markets in the rest of the world

- Growth is strong in parts of the Middle East
  - Dubai infrastructure market remains virtually dormant
  - Qatar, Kuwait and Saudi Arabia seeing high levels of infrastructure spend by their governments
- Australia's resource-led economy is presenting excellent opportunities
- Hong Kong's outlook is highly positive in both transportation and utility infrastructure

# Key actions

# Five clear objectives

1. Develop our business further
2. Focus on markets with the greatest opportunities
3. Improve operational performance and cost-effectiveness
4. Continue to strengthen core skills
5. Continue to show leadership in values and behaviour

# Developing our business further

- Seeking out areas of market opportunity
- Acquiring businesses that fit our strategy
- Managing subsequent integration and growth

# Developing our business further

## Howard S. Wright acquisition

- Based on the Pacific West Coast
- Region set to be one of the first in the US to resume healthy growth
- Good geographic, strategic and cultural fit
- Puts us in 3rd position in US general building
- Significant opportunities in leveraging HSW's relationships with customers which we could serve on a broader geographic basis

# Developing our business further

- Seeking out areas of market opportunity
- Acquiring businesses that fit our strategy
- Managing subsequent integration and growth
- Leveraging infrastructure investment skills
  - Establishing infrastructure funds management business
  - Good progress in the period

# Increasing our focus on markets with the greatest opportunities

- UK power market
- Local Authority outsourcing
- International growth markets

# Increasing our focus on markets with the greatest opportunities

## UK power market

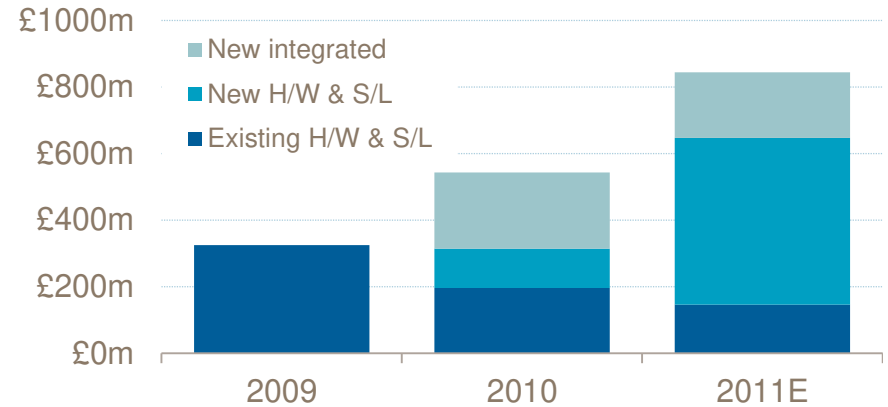

- UK's energy policy will move materially over the next 10 years towards cheaper clean technologies
- Our approach is to be capable in a range of technologies
- We are investing in a number of capabilities to take advantage of this market
  - Nuclear power
  - Offshore power
  - Parsons Brinckerhoff is one of Europe's foremost power consultancies
- Preferred bidder on the £317m Greater Gabbard Offshore Transmission programme
- Actively building capability in waste to energy

# Increasing our focus on markets with the greatest opportunities

## Local Authority business, Living Places

- Created a separate unit within our Support Services group
- £660m of contracts won in the last 18 months
- High volumes of tendering activity in the Local Authority market
- Our win rates better than 1 in 2
- Recent 100% track record in securing contract extensions
- Increasing role of integrated contracts is an opportunity

# Increasing our focus on markets with the greatest opportunities

## New growth markets

- Developing a Canadian transportation practice following the acquisition of Halsall in Canada
- Opportunity to combine Parsons Brinckerhoff activities in India with our PPP skills to create a highly relevant offering

# Improving operational performance and cost-effectiveness

- Adjusting the cost structures of operating companies
  - Reduction of 1,700 employees in 12 months
- Have been rolling out procurement and back office initiatives since spring 2010
  - Roll-out is proceeding according to plan
  - Completion expected in 2013
  - Achieving gross annualised benefits of about £15m
  - Anticipate achieving annual gross savings of £30m, £20m net

# Strengthening our core skills

- Developing the culture and mechanisms to share and transfer knowledge
- Using our combined skills to gain competitive advantage
  - Global transport planning skills applied to the Local Authority market
  - PB's world leading engineering and programme skills enhance our construction proposition
  - PB is a key component of the funds management business

# Managing in changing markets

# Professional Services

- Steady volume and reasonably robust margins expected
- Progress is impacted in the UK by the shift in market drivers from public to private sector market
- Repositioning resource to higher growth areas
  - Middle East and Asia
  - Mining
- Focus on value and efficiency to enhance the bottom line
- Confident in our ability to deliver both the financial and strategic objectives of the PB acquisition

# Construction Services

- Unlikely to see activity levels grow substantially in the short term in the UK and the US
  - Some further reduction possible in the UK
- Lack of volume will impact our business
  - Some reduction in gross margins
  - Working capital outflow
- Opportunities to grow elsewhere in the world
  - Hong Kong
  - Middle East

# Support Services

- Steady growth in activity
  - Local government outsourcing
  - Energy sector
- Profits held back in the short term
  - Mobilisation costs impact the early stages of contracts
  - Full benefits accrue at the later stages

# Infrastructure Investments

- Governments focusing on finding solutions involving the private sector
- Investment opportunities exist, particularly in the UK
- Generating further income by disposal of mature assets

# Conclusion

- Although there are significant challenges in our markets, the nature and magnitude of these are as we expected and planned for
- We are confident of making progress in 2011
- Looking further out, we will continue to manage the business on the basis that conditions will remain tough
- Our strategy will stand us in good stead
  - Scale and capabilities we have built over the last several years
  - Actions we have taken in individual markets
  - Major cost measures we started implementing in 2010
- We expect recovery in our markets in the medium term
- We are well-positioned to take advantage of the growing demand longer-term for infrastructure across the globe

# Forward-looking statements

This announcement may include certain forward-looking statements, beliefs or opinions, including statements with respect to Balfour Beatty plc's business, financial condition and results of operations. These forward-looking statements can be identified by the use of forward-looking terminology, including the terms "believes", "estimates", "plans", "anticipates", "targets", "aims", "continues", "expects", "intends", "hopes", "may", "will", "would", "could" or "should" or, in each case, their negative or other various or comparable terminology. These statements reflect the Balfour Beatty plc Directors' beliefs and expectations and involve risk and uncertainty because they relate to events and depend on circumstances that may or may not occur in the future. A number of factors could cause actual results and developments to differ materially from those expressed or implied by the forward-looking statements, including, without limitation: developments in the global economy; changes in UK and US government policies, spending and procurement methodologies; and the failure in Balfour Beatty's health, safety or environmental policies.

No representation is made that any of these statements or forecasts will come to pass or that any forecast results will be achieved. Forward-looking statements speak only as at the date of the relevant materials and Balfour Beatty plc and its advisers expressly disclaim any obligations or undertaking to release any update of, or revisions to, any forward-looking statements in the materials. No statement in the announcement is intended to be, or intended to be construed as, a profit forecast or to be interpreted to mean that earnings per Balfour Beatty plc share for the current or future financial years will necessarily match or exceed the historical earnings per Balfour Beatty plc share. As a result, you are cautioned not to place any undue reliance on such forward-looking statements.
